

## Why should you choose language summer camps with PROGRAM (formerly PROGRAM-Bell)?

For many years PROGRAM has been organizing themed language camps with English native speakers. Learning English naturally when speaking in class with native Brits, Americans or Canadians is the easiest way to effectively acquire English. There is no textbook or teaching method that would match the effectiveness of natural language acquisition. Our teachers from USA, Great Britain and Canada have the right qualifications to teach a foreign language, experience in working with children, they are full of enthusiasm and their personalities are just perfect for this job. At the same time they have many additional skills: they are familiar with the rules of many sports and games, they are musical and can sing or play musical instruments, direct a play and make a good movie or musical. All our teachers have experience working in other countries, often with children from other cultures. We are certain that this experience will enrich the summer camps organized by our school and allow children and teenagers to discover their talents.

Dragons love old castles and Wleń is one of them. Here, many bloodcurdling stories took place and you will learn about them when visiting the palace. That camp in Wleń will be somewhere between fairy tales and fiction. We suggest that you write your own versions of such a fairy tale and its action will take place in the beautifully restored interiors of the palace and in the park surrounding it. We will use it to shoot films and watch them together on a big screen. We will use the movie "How to Train Your Dragon" as an inspiration and we will enter the world of vikings and wild dragons. You will learn about the many adventures of Czkawka, a fearless teenager who instead of fighting with dragons decides to be friends with them.

During the camp you will create your own dragons inspired by Chinese tradition under the eye of an artist – Przemek Szydłowski. At the end of the camp your dragons will take part in a parade in the park.

## The Witcher & Other Stories

We invite you to spend two weeks with incredible and thrilling adventures in an old Henrykowski palace in Siemczyno, in the West Pomeranian province. The palace was built in the 18th century by the von der Goltz family. It is a spectacular building hiding a few interesting stories. Here, in Heinrichsdorf, the Swedish army crossed the Polish border, starting their invasion called "Swedish Deluge". Henryk Sienkiewicz writes about it in the second part of his trilogy entitled "The Deluge". This book is full of suspense, like the books of Edgar Allan Poe or Arthur Conan Doyle, who are masters of this genre. However, this time horror will mix with fantasy. You will be inspired by the work of A. Sapkowski – a saga about "The Witcher", whose world is inhabited by dwarves, gnomes, werewolves and vampires. At the camp you will get to know a few fragments of the story of Geralt of Rivia, Cahir, Jaskier, Ciri, Yennefer and many others.

Inspired by the saga, you will create your own theatre etudes in the baroque scenery of the palace and the park surrounding it. You will also use other characters from the well-known films, games and novels of A. Sapkowski where horror and fantasy meet. You will have a make-up session to which we will provide materials and tools and this will make the whole project even more thrilling! You will also be supported by actors from the STA studio from Poznań who will give you two-day acting workshops.

And at the end of the day, when the evening finally comes and when your faces are reflected in the waters of a nearby lake will it be like in the poem by E.A. Poe? - "a dim lake that drowns in the mist and a forest haunted by ghosts" - you will see for yourself ...

We will take many wonderful trips to Czaplonek lake. You will take a cycling trip down the Henrykowski trail and you will find traces of previous generations, where the present mixes with past. Or maybe one of the paths will lead to The Witcher?
