

Why should you choose language summer camps with PROGRAM (formerly PROGRAM-Bell)?

You don't have to leave Poland to taste life in an English-speaking atmosphere and to speak only English for two weeks.

Szkoła Języków Obcych Program Sp. z o. o. registered in the National Court Register under the number KRS 0000064609, hereinafter referred to as PROGRAM school was the first school in Poland to organise thematic language camps with English-speaking native speakers and has been doing that for more than 30 years! Learning English naturally when speaking in class with native English, Americans or Canadians is the easiest way to acquire English effectively. There is no such textbook or teaching method that would match the effectiveness of natural language acquisition. Our teachers from USA, Great Britain and Canada have the right qualifications to teach a foreign language, they have experience in working with children, they are full of enthusiasm and their personalities are just perfect for this job. At the same time they have many additional skills: they are familiar with the rules of many sporting disciplines, they are musical and can sing or play musical instruments, they can direct a play, make a good movie or musical. All our teachers have experience working in other countries, often with children from other cultures. We are certain that this experience will enrich the summer camps organized by our school and allow children and teenagers to discover their talents.

We are the Champions or Kung Fu Panda saves Marina from Destruction

Welcome to Marina, young athletes and fearless fighters of the East Asian martial arts! Are you strong enough to take part in football, taekwondo, aikido or swimming competitions?

At the camp you will get into a real whirlwind of sports adventures, as well as experience many funny adventures while creating film scenes based on Kung Fu Panda screenings. Po, the protagonist of the film, a resident of the Marina resort, finds out that he has been chosen to save the holiday center and its inhabitants from destruction ("extermination" is just too strong a word). Unfortunately, he is not one of the strongest and best organized bears, so he dreams of becoming a master in the martial arts and you will help him to succeed in it! Together you will transform the Panda Bear into an East Asian martial arts warrior. You will face the dangers posed by Po's enemies, and with your help he will find strength to face his opponent. Your task will be to support the brave Panda Bear. Not only will you gain physical fitness during many competitions, games and tournaments but you will also have great fun. By the way, you will learn the secrets of many American games, such as rounders and baseball.

During the camp, in the breaks between filming scenes, you will practice and improve the techniques of East Asian martial arts under the supervision of trained instructors. At the end of the training you will prepare a show of your newly acquired martial arts skills in the park surrounding the center.

An additional attraction during the camp will be swimming in the lake near the resort, as well as a trip to the Mysia Wyspa. In addition, we will organize a number of outdoor sports and recreational activities under the supervision of a PE instructor.

The Spy who Loved Me

The beautiful Marina resort in Borne Sulinowo, located 100 meters from the beach and surrounded by forests and lakes, will be the scene of an intense espionage action and fights between the secrets agents of two intelligence services.

Russian and British submarines disappear in mysterious circumstances, causing a great stir among the governments of both countries. The Russians react immediately and send their agent Triple X - Anya Amasova. The British engage their best agent, known by the codename 007. It is, of course, James Bond.

Our camp will revolve around the unusual, dangerous and rather surprising cooperation of these two agents. As the title of the camp suggests, there will also be a love story. In addition to great adventures on the film set, you will also go on an amazing trip to the post-Soviet ghost town of Kłomino, of course under the supervision of a guide.

Each group at the camp will write their own unique script for the movie "The Spy who Loved me". Then they will make an original set design. We shall not forget about the appropriate music. At the camp you will organize an open discussion on the genesis of films about agent 007. You will talk about the actors who have played the main role and the author of the James Bond novels - Ian Fleming. And did you know that one of the heroes of the films has Polish roots? Who? You will find out at the camp. We will check the acquired information and vocabulary with a Jeopardy quiz.

There will be one more attraction during the camp – swimming in a nearby lake and a water tram ride to Mysia Wyspa and the already mentioned ghost town Kłomino.

In addition, we will organize a number of outdoor sports and recreational activities under the supervision of a PE instructor.

The Chronicles of Narnia in the Mysterious Szczecinek Wardrobe.

Welcome to a world of mystery and fantasy in Szczecinek! Surrounded by a beautiful old park by a picturesque lake you will experience an amazing adventure and you will become a part of the C.S. Lewis saga – The Chronicles of Narnia. There are many old wardrobes in the nooks and crannies of the resort center in Szczecinek. Will any of them turn out to be the magical one? Will you travel through a wardrobe to a wonderful world of fauns, unusual animals and witches? Without a doubt.

Once upon a time a witch called Jadis cursed Narnia to eternal winter. Together with Lucy, Edmund, Susan and Peter you will experience incredible adventures once you find yourself in Narnia, the land behind one of the old wardrobes.

At the camp you will experience an amazing adventure and then you will create a film with great music. It will sound like the cold icicles of Narnia, the witch's fight with the lion Aslan and also like the creaking of an old wardrobe. Each of the three project groups will use their own hand-made instruments together with flutes, guitars or violins brought to the camp. In addition to the festive film evening we will organize an unusual concert called Narnia 2021 and our music will be heard on other side of the lake.

There will be other attractions during the camp – a short sailing course conducted by instructors from the Centre, swimming in a nearby lake and a water tram ride to Mysia Wyspa. You will also walk around some interesting bunkers from the times of the Second World War.

How to Become a Millionaire or the Glamour of the 5th Avenue

Who doesn't dream of making a fortune and endless financial opportunities? We have never had such a challenge at our camps before now! History shows that the empires of millionaires were built based on creativity and hard work. Many millionaires started building their fortune with a great idea and just a few pennies in their pockets.

The camp in Szczecinek is for those who have faith in both their strength and ideas. The camp could also be considered as training, where you will develop your business skills, start your own company, and start producing and selling your products. To familiarize you with many aspects of business we will show you several episodes from a British television programme – Dragons' Den. You will have to convince the jurors to invest their money in your business.

Then you will give your products catchy names, create attractive packaging and come up with appropriate advertisement ideas, preceded by market research. You will conduct interviews with each other and on that basis you will create a radio (music) and television (video clip) advertisement. And don't forget about posters and billboards! You will work in groups and will be assessed by local businessmen who are temporarily employed at the camp as teachers.

The theme of the camp will be the production of cosmetics. A professional chemist will teach you how to make fragrant soap, eyeshadow and creams. All this will happen in a specially created laboratory. Finally, there will be a festive Gala Dinner where you will present your products!

During the camp you will also have an opportunity to swim in a nearby lake, take a pedal boat trip to Mysia Wyspa, enjoy bike rides around the area and take part in a sailing course organized by instructors from the center. And what's more, you will also visit bunkers from World War II.

Siemczyno Palace - Holiday/Group C

26.07.2021 – 8.08.2021

Price: PLN 2,990, (in installments: PLN 990 + PLN 2,050)

The Dancing Aladdin's palace

This year, Siemczyno Palace will turn into a dancing Aladdin's Palace. Aladdin is a cute troublemaker who lives on the streets of Agrabah. He dreams about giving up the life of a petty thief because he believes he was destined to do greater things in life. On the other side of town Princess Jasmin, the Sultan's daughter, lives her dreams. The Sultan is looking for a suitable husband for her. Aladdin helps the princess when they accidentally meet at the marketplace. With this meeting his new life begins: he accidentally comes into possession of an oil lamp, falls in love with Jasmin, and the Genie (played by Will Smith) locked in a bottle is released. The Genie is a colorful character out of this world. Jasmin and Aladdin set out on an exciting and dangerous journey. Will it end well?

You will help him with that! Thanks to you, Aladdin will regain his sense of humor and courage. Inspired by the film Aladdin, you will turn the palace in Siemczyno into a dancing musical and you will feel the atmosphere of the fairy-tale Sultan's palace. Great costumes like from the book of Scheherazade will inspire you to create a fairy-tale dance show in which you will play the roles of the heroes of your choice. Your English-speaking teachers will help you write and create your own work.

You will also be supported by young actors from Poznań who will give you a two-day acting workshop where you will focus on vocal exercises, work with your body and discover your vocal abilities.

You will relax during several bathing trips to the nearby lake in Czaplinek and bicycle trips around the beautiful forests and lakes. Or maybe you will meet one of the funny characters from the movie?

The Castle of Horrors

We invite you to spend two weeks having incredible and thrilling adventures in an old palace in Siemczyno, in the West Pomeranian province. This palace once belonged to the von der Goltz family and there are several tragic stories associated with it. They are full of suspense, like the books of Edgar Allan Poe, Arthur Conan Doyle or Oscar Wilde. You don't know who these men are? Don't be afraid. During the camp you will get familiar with some of the stories of these authors and will see what influence that had on American filmography. The following will serve as inspiration: "The Fall of the House of Usher" by Allan E. Poe, "The Canterville Ghost" by Oscar Wilde and "The Hound of the Baskervilles" by Arthur C. Doyle. Inspired by those works you will create your own theater scenes in the gothic scenery of the palace and the park surrounding it. You will also use other characters from well-known films and stories where horror and terror meet. You will have a make-up session and this will make the whole project even more thrilling!

You will be supported by young actors from Poznań who will give you a two-day acting workshop where you will focus on vocal exercises, work with your body and discover your vocal abilities.

During your stay you will take many trips to the lake near Czaplinek and visit this old, historic town. You will also go on a trip to Drawsko Pomorskie and visit the ruins of Drahim Castle.
